

BOWLER ENTERTAINMENT SYSTEM

SPECIAL GAMES FOR SPECIAL EVENTS

**LET US ADD A LITTLE EXTRA FUN TO YOUR GAME
AND KEEP THE GOOD TIMES ROLLING...**

We can offer you a wonderful selection of special games that can be added to your bowling to offer you and your group a different and unique experience and "spice up" the game of bowling. These games add an additional layer of fun to your special event by encouraging team play and team building, and are a fun way to award prizes and give each player a chance to "win". Here are a list of our games, have a look and pick your favorite, we will be happy to add it to your bowling event.

STRIKER Rewards players that achieve strikes when they are prompted by the monitor. One lane is chosen at random to strike. If that person misses, another lane will be randomly selected, with the game continuing until someone strikes.

RED PIN FRAME When the "Red Pin" appears in the head pin position (#1 pin placement), if the current bowler strikes he/she receives a prize* (with appropriate bowling).

MEGA SLOT/LANE LOTTO/MAGIC WHEEL MISTRESS All three of these games are based on luck, and all lanes play simultaneously. Only one lane will win at a time. Mega Slot is a slot machine where the object is to get three of the same symbol showing when the slot machine stops. In Lane Lotto, "Louie the Lucky Leprachun" will appear in the enchanted forest along with his magical tree. Winning is achieved by having four of the same colored balls fall out of your lane's tree trunk. Magic Wheel Mistress is played with a wheel of fortune that must stop at the jolly image for the player to win (*but everyone gets to look at the pretty wheel mistress!*).

ROCKY ROAD RACE Is a competition between all selected lanes in which each lane advances its own car in the race by picking up "hot shots". After each "hot shot", a summary of the race progress is displayed on your lane monitor, highlighting the car in the lead. Due to the design features of this game, this game may not be played simultaneously with any other special games. The image is displayed as a "picture in picture." This allows the scores to be displayed and also allows the customer to track your progress in the race. (Highly Recommended for a fun and competitive "team building" experience).

POKER Bowlers must bowl a "hot shot" in order to be dealt a card. The bowler then tries to form the best poker hand. The bowler will only be allowed to keep five cards in his/her poker hand, so choose wisely!!

SLEDGEHAMMER The "Strong Man" sledgehammer animation appears on the screen after bowlers make a "hot shot." Not all "hot shots" will be rewarded with a prize. Only one person will win at random, so swing your sledgehammer as many times as you can!

LUCKY TRAIN This game is a game of chance. When the game begins, a bell rings and a train crosses through the selected lane monitors. The train then stops and the caboose opens to reveal the winner. Only one person will win at random. This game can be played as often as requested. The game is perfect for giving away prizes when a skill is not required to win.

BIRTHDAY WHEEL/CHRISTMAS WHEEL These are perfect Add-On games for birthday parties or end of the year Holiday Events. Similar to the Magic Wheel Mistress, an animated character appears to spin a Wheel of Fortune to reveal a winner. There is only one winner at a time, however the game can be played as often as you wish.

3-6-9 The 3rd, 6th, and 9th frames are automatically awarded as "strikes" for all bowlers. Or choose whatever frames you want... maybe 2, 4, 8 or 1, 2, 3...the options are limitless.

NO-TAP (7, 8, OR 9-PIN) No tap allows the bowlers to get credit for a strike when they knock down 7, 8, or 9 pins, depending on the option you choose.

LOW BALL In "low ball" bowlers try to knock down the least amount of pins possible. However, you must knock down at least one pin on each shot. If you throw a gutter on the first ball, you get a strike. Likewise, if you throw a gutter, or get no pins on your second ball, you receive a spare for that frame. The perfect game in "low ball" is a score of 20.

BEST FRAME A new "virtual bowler" is created at bottom of bowler list. Once all bowlers have completed bowling each frame, the system selects the best frame and assigns the score to the new "virtual bowler" Frames are filled in on a ball by ball basis. This is great for team building and fun tournaments.

BEST BOWLER Like in "Best Frame" a new bowler is created. However, "Best Bowler" takes the best overall frame bowled on your lane. This process is repeated until a full game is played.

*NOTE: Prizes are not included with games. Please see our special events coordinator for more details.
